Transfer a Production

Harjanne Company Ltd – Transfer a Production

Professional, international, passionate!

Put on a great production by finding the best industry professionals for your chosen production. Allow your staff to concentrate on other important matters while a committed and enthusiastic team is managing the creatives for your production.

Creative teams managed by Harjanne Company Ltd have been involved in various productions in different countries. Harjanne Company Ltd offers your theatre an easy way to put on a production that has already been designed for another venue. Putting on a production with an existing design allows your theatre to have a cost-friendlier budget, smaller pre-production costs, and a production that is guaranteed to attract and entertain audiences. The creative team fee is a royalty percentage of the box office gross (royalty fee negotiated separately). In some cases, Harjanne Company Ltd might have access to existing set elements of a specific design that might be negotiated to be used in your physical production. This facilitates ecological, budget-friendly theatre making. All productions are subject to performance right approval by the performance right owners.

Transfer a Production

"Anything can happen if you let it!" - Mary Poppins

A musical theatre performance can be an expensive production to produce. Due to the number of different departments necessary for a musical theatre production to run the budget often gets higher than a regular theatre performance. Especially the pre-production costs are often high due to the need of longer rehearsal period, large creative teams, big sets and lots of costumes needed for a musical production.

We at Harjanne Company Ltd have aimed to decrease some of these pre-production costs and unnecessary production costs by aiming to give existing productions and designs a second life. To replicate an already existing design allows your theatre to decrease the length of a needed rehearsal period and the design costs of a show. We at Harjanne Company Ltd also care about the ecological way of producing theatre and find this a nice alternative for a traditional way of producing – while not wasting the resources of our nature.

Our catalogue of shows at the moment includes:

- *Les Misérables* (original production from 2017)
- *Kinky Boots* (original production from 2018)
- *Disney's The Little Mermaid* (original production from 2019)
- *Billy Elliot* (original production from 2018)

By buying an existing design from Harjanne Company Ltd, you get:

- A production that has been proven to work for the audiences as well as been artistically successful
- A rehearsal period planned to a T, allowing, in some scenarios, a shorter rehearsal period with the cast
- A budget friendlier pre-production where the fee of the creative team comes from the box office royalties. The royalties are a separately agreed percentage from the box office gross (minus the ticket seller fees and VAT)
- A design that is already approved by the authors of the show. Performance licence are subject to the approval of the performance right owners
- In some cases Harjanne Company Ltd is able to offer parts, if not all, of the previously produced set elements and costumes of the production. This is subject to availability and negotiations with previous producers of the show

Contact us and let's discuss your ideas of giving one of our designs a new life in your theatre!
